

ShopSphere Return Policy

Effective Date: January 1, 2026

Last Updated: January 1, 2026

1. Purpose

This Return Policy explains the circumstances under which products purchased through ShopSphere may be returned. It is intended to provide customers with a fair, transparent, and consistent process while protecting sellers from misuse. By placing an order, customers agree to this policy and the related Refund and Shipping Policies.

2. Return Eligibility

Most products may be returned within seven calendar days from the date of delivery unless a different return window is displayed on the product page. Returned items must be unused, unwashed, and in substantially the same condition in which they were received, together with original packaging, accessories, manuals, warranty cards, invoices, tags, and complimentary items.

3. Non-Returnable Products

Certain products cannot be returned for hygiene, legal, or operational reasons. These may include personalized products, digital goods, gift cards, perishable goods, intimate apparel, and products explicitly marked as non-returnable. Defective or incorrectly delivered items may still qualify for replacement or refund where applicable.

4. Return Request Process

Customers may initiate a return through the My Orders section by selecting the relevant order, choosing a return reason, and providing supporting photographs when requested. ShopSphere reviews requests to verify eligibility and may contact the customer for additional information before approval.

5. Pickup and Inspection

Where pickup service is available, a logistics partner will collect the product from the registered address. In locations where pickup is unavailable, customers may be asked to self-ship the product following instructions provided by Customer Support. Every returned product undergoes a quality inspection to verify condition and completeness before a refund, exchange, or replacement is approved.

6. Exchanges

Eligible products may be exchanged for the same product in a different size or color, or for a replacement where a manufacturing defect is confirmed. Exchange availability depends on inventory. If a replacement is unavailable, an eligible refund may be processed instead.

7. Rejected Returns

Return requests or inspections may be rejected if the product shows signs of misuse, physical damage caused after delivery, missing accessories, tampered serial numbers, or absence of original packaging where required. Customers will be informed of the reason for rejection.

8. Customer Responsibilities

Customers should inspect deliveries promptly and report damaged, defective, incorrect, or incomplete orders within the applicable reporting period. Products should be packaged securely when returned to prevent damage during transit.

9. Policy Updates

ShopSphere reserves the right to revise this Return Policy from time to time. Updated versions will be published on the official platform and will apply to future orders unless otherwise required by law.
